ACTIVITIES WHICH WERE NOT CONDUCTED:

- **PUBLIC FORUM**

This event was to be done in NOVEMBER 2009, with collaboration with WAMA who promised to provide full financial assistance, but wasn't done on respective date planned due to tight time tables at WAMA office.

The event was again planned to be done in JANUARY 2010, for both of our offices conveniences, but again it was not conducted due to taightness of the university schedule.

- **STUDY TOUR TO NAIROBI UNIVERSITY.**

The tour was expected to be conducted during the inter semester break in march 2010 after effective communication between the two universities, where by the Nairobi University was willing to host students who could go there, and provide necessary requirement during the period of the tour. But in this year as compared to other years there was no inter semester break the thing that made the tour unsuccessfully.

RECOMENDATIONS.

1. Efforts should be taken by the ministry of foreign affairs in collaboration with other ministries to encourage students participation in various events organized and conducted inside and outside the university.
2. The university management should provide a full support to students to enable them participate in various events conducted within and outside the university.
3. A study tour to other universities inside and outside the country is very important to be conducted as this will enable the exchange of ideas and knowledge.
