**THE SHORT SPEECH FROM VICE PRESIDENT TO THE UNIVERSITY  
STUDENTS REPRESENTATIVE COUNCIL (USRC) OF MUHIMBILI  
UNIVERSITY OF HEALTH AND ALLIED SCIENCES STUDENTS'  
ORGANISATION (MUHASSO)**

Hon. Speaker, Deputy Speaker, Secretary of the USRC,  
Dear Members of the USRC,  
Dear observers,  
Good morning.

I feel honored to stand before you today, not to end but to mark the new beginning of our battle.

I feel to express my sincere gratitude and thank you all for your great support, for the whole period of our leadership. Whether you have noted it or not, you did a great and good job and your consciousness can tell you. You might think you were just a leader of MUHAS students, you were not at all, but you were leading the potential Tanzanians. You were not doing for MUHAS, you were not doing for MUHASSO, not for your fellow students, and not for yourself either, but you did for the Nation.

I'm sure to some of you if not all; you will never forget this day.

Dear members of the USRC, This is not the end but just the beginning of our long journey, towards the hard work of restoring the loosed hope and dead dreams of many Tanzanians. It doesn't matter how our country looks like, it doesn't matter how poor it is, and the corrupted contracts which our leaders have signed will never erase our hope and our dreams for this nation. We must open our eyes and see, listen very careful and act accordingly without delay. They say, we are kids and they treat us as kids, surely they are wrong. We are not kids, we are not kids, we understand and we know for sure what is going on in our University and our country. Leaders of this University, leaders of this nation we know them very well and we know ourselves also.

I speak this from my spirit and my faith, Truth can never change, it can be hidden for sometimes but will never be erased, its impact prevails forever.

Dear members of the USRC, in this world no one will fight for you, but you must fight for others to be free. Free from diseases, poverty, and ignorance, hunger, free from death which caused by preventable circumstances. This is the time to sharpen our thinking, to act, to materialize our imaginations and realize our reality. You are doing what you are doing because of your thoughts.

Dear members of the USRC, We are not leaving in our reality, poverty is not our reality, neither diseases nor hunger. They have now baptized as resource limited country. We are not living in a resource limited country but in a country with full of resources and intelligent people like you. What you think is what you become.

**Look;**

**Water bodies;** Sea, lakes, rivers, hot springs and dams. **Enough fertile land, Minerals;** Gold, Diamond, and Copper, Tanzanite, Iron, Bronze, Coal, Phosphates, Gypsum, Uranium, **Gas and waterfalls;** for fuel **Famous and beautiful Mountains;** Kilimanjaro, Mt. Meru, **National parks, Game reserves and Conservational Area;** Serengeti National park, Mikumi N. park, Manyara N park, Tarangire N park, Ngorongoro Caldera, Selous **Wild beast, birds and peculiar plants;** White elephant, Flamingo, Kihansi frogs, Maranguensis spp, **Historical sites;** Oldupai gorge, Laitolia, Irangi kondo, Kilwa, and Zanzibar, Bujora and so many others.

Wealthy is our reality. Our country is full of natural resources. Our decisions and actions of today will determine the life of children and our grandchildren. Remember we always live in the residue of our past decisions and actions.

Hon. Members of USRC, It is now 49 years since Tanzania got independence, 48 years since we became republic of Tanzania, we are not living in our reality it is the time to say enough, no more pain; it begins with you. Remember it is you alone who create your reality.

All the ability to modify and even to change the dynamic of our situation is within us, not from outside. "Take the step in faith, you don't have to see the whole staircase, just take the first step" By Martine Luther Junior

Fear not, furthermore there is nothing to fear, "Something you should fear is fear itself" By John Kennedy

Together we can change! We have to fly, if we can't fly let us run, if we can't run lets walk, if we can't walk, lets crow, if we can't crow we have to do something so as to keep ourselves always move. All power is from within and is therefore under our control.

I tell you these things simply because I believe you have dreams; you have visions for our dear parents Tanzanians and for our children, the coming generation. Keep on holding it; we have started and no one can stop us.

Thank you. May god bless you.

God Bless Africa  
God bless Tanzania  
God Bless Muhimbili University of Health and Allied Sciences,  
God Bless MUHASSO,

Thank you.

ADRIANO, George  
VICE PRESIDENT
