

PFC REPORT												
INCOME FROM DONOR FUNDED RESEARCH PROJECTS RECEIVED FROM JULY TO SEPTEMBER, 2018												
S/N	PI Name	Project Donor/Collaborator	Project Title	Start Date	End Date	Objectives	Vote Code	Total budget	Amount received July to September, 2018		Institutional Overhead	
									USD	TSH	USD	TSH
1	Prof. Sirel Massawe	Karolinska Institute	Global Health Course	1996	Unspecified	Conducting course for medical students from Karolinska. Conducted two course; for 23students in January 2016 and another one for 22 students in May 2016	000/3120	Depend on students received			0.00	0.00
2	Ms. Lusajo Kajula, Dr. Jessie K.K. Mbwambo	National Institutes of Health (NIH) in collaboration with University of North Carolina (UNC)	Identifying venues to prevent HIV and violence for youth in Tandale district, Dar es Salaam	July 2012	March 2018	To examine the feasibility and acceptability of a venue based community popular opinion (CPOL) intervention in identifying and characterizing venues where men at high risk for HIV acquisition socialize	000/3445	USD 1,500,000.00	1,168.00		86.52	0.00
3	Dr. Samwel Likindikoki	Save the Children/ Johns Hopkins University	Evaluating an integrated approach to reduce intimate partner violence and improve psychosocial health in refugee camps in Tanzania	November 2014	October 2016 (Requested NCE)	Conducting a controlled randomized trial of an intergrated intervention that simultaneously target intimate partner violence and its psychosocial health consequences in a refugee camp in lower-medium income country	000/3509	USD 86,374.00			0.00	0.00
4	Dr. J. Makani	University of Capetown	H3ABioNet: a sustainable African Bioinformatics Network for H3Africa	August 2012	July 2017	bioinformatics infrastructure and support for the H3Africa Consortium. The network aims to support genomics and bioinformatics components of H3Africa research projects and Collaborative Centres, to	000/3453	USD 54,636.00	23,100.14		1,711.12	0.00
5	Dr. Thecla W. Kohi	PEPFAR	Teaching and learning about HIV/AIDS in Tanzania Schools	July 2005	unspecified	Training nurse teachers to be effective as HIV/AIDS educators	000/3267	USD 187,450 annually			0.00	0.00
6	Prof. Japhet Killewo	MUHAS- Harvard, Funds from NIH	DAR cohort study	May 2011	unspecified	To establish and maintain a health and demographic surveillance system for the study of environmental exposures among residents of all ages in DSM region. Surveillance is going on.	000/3368	USD 200,000.00 per year		11,805,909.00	0.00	874,511.78

7	Prof. Japhet Killewo	The John Hopkins University	Community Health Worker (CHW-LAP)	November 2011	September 2016	To support the MoHSW in implementing a national CHW cadre	000/3295	USD 2,002,472			0.00	0.00
8	Prof. Muhsin Aboud	NIH	DMRET- Dartmouth-MUHAS Research Ethics Training Programme	May 2016	May 2021	Capacity Building Grant in the Bioethics, provides support to train Masters Students	000/3418	USD 77,560			0.00	0.00
9	Prof. Sylvia Kaaya	PREPARE Project, In-collaboration with University of Bergen: Funds from the EU	Promoting sexual and Reproductive Health amongst Adolescents in Southern and Eastern Africa	April 2014	March 2019	The purpose for this grant is to develop research based culture and gender sensitive sustainable community based interventions	000/3371	USD 3,750,000.00			0.00	0.00
10	Prof. Kisali Pallangyo	NIH/Dartmouth College	Tuberculosis Research Institute at MUHAS	August 2013	January 2018	Establishing Research institute	000/3471	USD 274,635			0.00	0.00
11	Prof. Ester Innocent	Stokholm University	Natural products with anti HIV properties	Jan 2014	Jan 2017	Search for herbal drugs that cure fungus in HIV patients	000/3479	USD 85,000.00			0.00	0.00
12	Dr Simon Mamuya	NORAD	Reduction of burden of injuries and disease in low income countries	January 2014	July 2019	Reduction of injuries and diseases at workplace in Tanzania and Ethiopia	000/3469	NOK 17,200,000.00	83,436.93		6,180.51	0.00
13	Prof. Eliangiringa Kaale	COSTECH	Application of Nanomedicine in enhancing Antimalaria	November 2013	October 2016	Enhancing antimalarial drugs	000/3467	Tshs 36,360,900.00			0.00	0.00
14	Prof. Gideon Kwesigabo	CDC	Strengthening Health Academic (Share-IT)	April 2014	March 2019	Strengthen capacity at SPHSS to provide increased numbers of well-trained, highly-qualified, public health graduates and workforce members with the skills and competencies needed to improve the Tanzanian health system	000/3482	Vary each year	120,000.00	-	8,888.89	0.00
15	Prof. David Urassa	PEPFAR/NIH	Afya bora consortium (ABC)	July 2012	April 2017	To contribute to health systems strengthening in our African partner countries by developing a leadership training program targeting primarily African health professionals	000/3483	USD 40,000.00			0.00	0.00
16	Prof. Ester Innocent	UNDP	Conserving repellent plants in Enduimet wildlife	January 2014	December 2016	Conserve plants which are repellent and used as vector of diseases	000/3464	TZS 240,973,380.00			0.00	0.00
17	Dr Mtebe Majigo	Private Health Lab Board	Microbiology and Immunology Lab	2012	Not specified	Conduct phase I and II evaluations of Laboratory Equipment and/or Methods	000/3440	90,000		10,407,784.00	0.00	1,357,537.04
18	Prof. Karim Manji	Harvard School of Public Health and Social Science	Global Disease Training (GID)	March 2014	February 2019	Train leaders focusing on childhood diarrheal disease, respiratory infections and tuberculosis	000/3313	USD 55,141.00			0.00	0.00

19	Prof. Karim Manji	University of Bergen	B12 Followup	December 2014	November 2017	Studying the role of Vitamin B12 supplementation in early childhood and Neurodevelopment between 5 and 15 years.	000/3497	USD 498,691.00			0.00	0.00
20	Prof. Karim Manji	The Boston Children Hospital	ZTDT	November 2016	October 2018	Finding optimal dose for Zinc in children with diarrhoea	000/3556	USD 450,000.00	211,219.00		15,645.85	0.00
21	Prof. Karim Manji	WHO/Boston Children's Hospital	Optimal use of Antibiotics in Children at High Risk of Diarrhea Induced Mortality (ABCD)	June 2016	May 2017	To conduct a randomized, double-blind, placebo-controlled trial in Tanzania and similar resource limited areas, to determine the effect of a 3 day course of antibiotics in the treatment of high-risk diarrhea	000/3555	USD 431,463			0.00	0.00
22	Dr. Elia Mmbaga	European Union	HIV NTD Kahe	June 2011	December 2017	To what extent NTDs contribute to HIV	000/3408	EU 140,000 per year			0.00	0.00
23	Dr. Elia Mmbaga	University of Malawi	Sexual Reproductive Health Among men	July 2015	June 2018	Improving access to health services among men who have sexual activities with men in Dar es Salaam	000/3530	GBP 270,000.00	15,687.68		1,162.05	0.00
24	Dr. Elia Mmbaga	NIH/University of California San Francisco	Molecular profiling of esophageal tumor specimens from Tanzania	May 2015	December 2017	To describe molecular and genetic susceptibility factors for Esophageal carcinoma in Tanzania	000/3531	USD 140,000.00	19,928.04		1,476.15	0.00
25	Dr. Elia Mmbaga	European Union	African Programme for Advanced Research Epidemiology Training	April 2011	March 2018	The project aims at building research and epidemiological capacity of graduates of masters in applied epidemiology and applied epidemiology and laboratory management	000/3398	USD 74,000.00			0.00	0.00
26	Dr. Elia Mmbaga	University of California San Francisco	Validation of the GeneXpert Breast Cancer STRAT4 Assay for Rapid Analysis of Breast Cancer Biomarker Status from Fine Needle Aspiration Biopsies in Tanzania (GX-BCB)	June 2017	August 2017	To describe the impact of a rapid biomarker assay for determination of hormone receptor status on breast care in a low-resource setting	000/3580	USD 44,800.00	114,995.00		8,518.15	0.00
27	Dr. Elia Mmbaga	DANIDA	Access to health services among Key population in Tanzania	May 2016	April 2022	To determine pull and push factors affecting access to sexual and reproductive health services among key population for HIV in Dar es Salaam and Tanga	000/3548	DKK 4,932,739.00			0.00	0.00

28	Dr. Elia Mmbaga	DUODECIM	GLOBOFINTA	September 2013	December 2016	To train a cadre of global health leaders in Africa, Asia and Europe through creating awareness on global health issues	000/3481	Euro 150,000.00 per year			0.00	0.00
29	Dr Elia Mbag	DUODECIM	Global FINTA	September 2013	December 2016	Building awareness on global health among health professionals	000/3481	Euro 150,000.00 per year			0.00	0.00
30	DRP	Sida	Health Research, Training and Innovation for Sustainable Development	July 2015	June 2020	To address gap and build sustainable research training capacity by year 2020. During the period 2015 to 2020 MUHAS intends to train 37 PhDs (14 continuing and 23 new), 23 Masters (all new) and 6 post-docs. The six subprograms that will host the students include HIV, Malaria& neglected tropical diseases, Reproductive Health, Injuries, Health Systems, and Research Training Support Program.	3112, 3147, 3186, 3177, 3185, 3190, 3172	82,000,000 SEK			0.00	0.00
31	Prof. SN Massawe	The Human Service Group INC	Task Shifting for Caesarean Section in Tanzania	May 2015	Feb2016	To explore, analyze, and document facilitators, barriers and challenges in implementation and scaling up of task sharing for caesarian sections by Assistant Medical Officers in Tanzania; document lessons learned and best practices in task sharing	000/3514	USD 119,480			0.00	0.00
32	Prof. Karim Manji/Prof. Said Aboud	MDH/TH Chan Harvard SPH	TOV5 Design: Randomized, double-blind, placebo-controlled trial of Vitamin D supplements for HIV-infected pregnant women (ALL on ART due to Option B+)	May 2015	April 2016	Conduct a randomized, double-blind, placebo-controlled trial to determine the effect of maternal vitamin D3 oral supplements containing 3,000 IU taken from the second trimester of pregnancy until 12 months post-partum on (a) maternal HIV progression, (b) small-for- gestational age infants, and (c) child stunting at 1 year of age.	000/3519	USD 25,164			0.00	0.00

40	Prof. Said Aboud	University of Bergen	Randomized clinical trial to assess whether the duration of cotrimoxazole preventive therapy in HIV patients after immune restoration to CD4 counts cells by antiretroviral treatment influences the rate of carriage of multi drug resistant bacteria	December. 2015	December. 2016	To assess whether cotrimoxazole preventive therapy (CPT) in HIV-positive patients results in increased carriage of multi-drug resistant gut microbes, including vancomycin-resistant enterococci (VRE) and whether CPT results in increased nasal carriage of methicillin-resistant <i>Staphylococcus aureus</i> (MRSA).		155,922 NOK			0.00	0.00
41	Prof. Ndeserua Moshi	NIH/Dartmouth	Central auditory deficits associated with HIV infection and treatment	July 2015	June 2020	Recruitment and Testing of HIV negative and positive subjects	000/3529	USD 643,522	50,322.50		3,727.59	0.00
42	Prof. Sylvia Kaaya	African Academy of Public Health	Hope Award	April 2016	March 2017	Training and supervising research teams in PMTCT	000/3470	USD 11,056.00	2,758.80		204.36	0.00
43	Dr. Billy Ngasala	Ministry of Health Community Development, Gender, Elderly and Children	Antimalaria Efficacy Test	January 2014	October 2016	To study antimalaria Efficacy	000/3383	USD 28,000.00	14,543.89	261,172,800.00	1,077.33	34,066,017.39
44	Prof. Japhet Killewo	Talloires Network/University of Rwanda-Umutara College	Youth Economic Participation Initiative Solve the Equestion East Africa(YEPI-SEE)	January 2014	Depending on activities	Using youth entrepreneurship as way to solve equetion in East Africa	000/3493	USD 30,000 pa			0.00	0.00
45	Dr. Jessie K.K. Mbwambo	NIH/Research Triangle Institute	ReReducing Failure-to-Initiate ART among People Who Inject Drugs: The IMAT Strategy	October 2015	May 2018	Facilitating ARV accessibility to drug injecting patients	000/3500	USD 31,972,24			0.00	0.00
46	Dr. Jessie Mbwambo	NIH/Medical University of South Carolina	Dyadic-Based Diagnosis, Care and Prevention for HIV Discordant Couples in Tanzania	August 2015	May 2020	Self-Testing for Stable Couples: a) assess the acceptability, safety, and factors associate with uptake of HIV self-testing; and b) determine the proportion of clients testing positive for HIV via self-testing who engage in care	000/3533	USD 414,725.00	149,855.73		11,100.42	0.00
47	Dr. Jessie K.K Mbwambo	NIH/National Institute of Mental Health/University of South Carolina	Impact of Integrated HIV/NCD Screening on HIV Testing uptake and Engagement in HIV Care & RCT; Kisarawe, Tanzania	September 2016	June 2021	To improve intergration of HIV and NCD care and treatment	000/3568	USD 1,309,674.00	90,307.80		6,689.47	0.00

48	Dr. Jessie Mbwambo	NIH- National Institute of Mental Health/John Hopkins University	Stigma Cohesion and HIV Outcome Among Vulnerable Women across Epidemic Settings	June 2016	March 2019	Exploring sex work stigma among both HIV positive and negative participants in how stigma related to sex work impacts both types of women, further allow the development of robust quantitative measure based on inputs from both populations	000/3563	USD 767,652.00	56,347.42	4,173.88	0.00
49	Dr. Jessie K.K. Mbwambo	CDC	Tanzania AIDS Prevention programme (TAPP2)	February 2013	March 2018	The Tanzanian AIDS Prevention Project aims to reduce HIV/AIDS transmission in injecting drug users and their networks in Dar es Salaam	000/3356	USD 1,350,000		0.00	0.00
50	Prof. Japhet Killewo	African Development Bank(AfDB)	Building Evidence and Capacity for Demographic Dividend in Africa	December 2016	June 2017	To assess Tanzania's Prospects for harnessing the demographic Dividend and influence policies that the country should adopt	000/3537	USD 250,000		0.00	0.00
51	Prof Sylvia Kaaya	NIH/Columbia University	Structural Intervention for Adolescent Alcohol Use and HIV Risk in Tanzania	July 2015	June 2017	To evaluate structural causes of alcohol use in adolescents	000/3542	USD 220,742		0.00	0.00
52	Dr. Innocent Semali	Tropical Disease-ANTWEP	Nodding Syndrome	November 2016	October 2020	To determine the magnitude of nodding syndrome and factors associated with the disease as well as prospect of intervention	000/3557	Euro 19,000 for First Year and USD 180,000 for two remaining years		0.00	0.00
53	Dr. Nahya Salim	Ifakara Health Institute	Every New Born Action Plan (ENAP)	September 2016	November 2018	Assess the validity of routine health facility-level registers and reporting and reporting documentation to measure the selected covering indicators in order to inform use (or not) of these indicators in national and global reporting	000/3552	GBP 762,233.57	15,299,970	0.00	1,995,648.26

54	Prof. David Urassa	NIH/University of Washington	Allergy, Immunology and Transplantation Research	October 2016	May 2017	This study aims at assessing the timeliness in the early infant diagnosis (EID) chain of custody and to investigate factors associated with delayed results in order to decrease turnaround time to enhance care, easily ART initiation and followup of HIV-infected infants in Bagamoyo and Kibaha Districts	000/3559	USD 36,178			0.00	0.00
55	Prof. David Urassa	NIH/University of Washington	Predictors and reasons for poor retention after initiation of option B+ among HIV-positive pregnant and breast feeding women from 2013 to 2014 in Dar es Salaam, Tanzania	August 2016	May 2017	Determine predictors and reasons for loss to follow up (LTFU) on option B+ for HIV-positive pregnant and breastfeeding women	Not yet allocated	USD 39,384			0.00	0.00
56	Prof. Said Aboud	Georgia State University	Vital Individual Training For African Leaders (VITALL)	October 2016	January 2017	To prepare curriculum for senior laboratory leadership fellowship program for African leaders	000/3562	USD 24,000.00			0.00	0.00
57	Prof. Julie Makani/Dr. Siana Nkya Mtairo	University of California San Francisco	Global Health Fellowship Programme	July 2016	May 2017	To conduct detailed investigation of genetic patterns in sickle cell disease patients with extreme fetal hemoglobin level	000/3358	USD 45,582			0.00	0.00
58	Dr. Anne Outwater	World Learning Wild General	Rukajuu Beekeeping Entrepreneurship for Young Men	November 2014	July 2017	to take charge of their lives by creating an opportunity for them to enhance their knowledge and understanding of entrepreneurship, finance and how to evolve their livelihood activities	000/3561	TZS 24,418,800.00			0.00	0.00
59	Dr. Samuel Likindikoki	NIH-Forgarty International/Medical University of South Carolina	Pattern and Risk Factors of HIV and Non Communicable Disease	September 2016	June 2018	To better understand HIV and NCD comorbidities in urban Tanzania and to lay the foundation to develop and test a family-based intervention to improve HIV and NCD outcomes	000/3567	USD 151,933.00	23,619.24		1,749.57	0.00
60	Prof. David Urassa	University of Washington	Afya Bora Consortium in Global Health Leadership	October 2016	May 2017	Train Health Leaders in African Country.	000/3564	USD 36,178.00			0.00	0.00

61	Prof. Lucio Luzzato	MUHAS-SIDA, MAGI Grant	Invitro Cultivation of Plasmodium Falciparum	June 2016	September 2018	To set up an in vitro culture of Plasmodium falciparum at MUHAS.	000/3547	TZS 30,000,000.00			0.00	0.00
62	Dr. Doreen Mloka	Resilient Africa-Uganda	Empowering Tanzania	February 2017	August 2017	Empowering Tanzanian community to achieve economic sustainability & resilience; A trainer of Trainer approach for value additional of Avocado & Rosella Products	000/3560	\$34,517			0.00	0.00
63	Dr. Bruno Sunguya	Pathfinder International	Mobilizing Maternal Health End of Project Evaluation	April 2017	August, 2017	To assess project's effectiveness in implementing strategies to achieve key maternal and neonatal outcomes, including strengths, challenges, and any constraints in technical implementation of the project	000/3575	USD 45,000			0.00	0.00
64	Prof. Ferdinand Mugusi	President and Fellows of Harvard College	Fatty Acids Mortality and Disease Progression among HIV infected Tanzanians	June 2017	August 2018	To Investigate mortality and disease progression in HIV infected persons loosing fatty acids in Tanzania	000/3541	USD 58,482			0.00	0.00
65	Prof. Julie Makani	NHI	Sickle Pan-African Research Consortium (SPARCO)	April 2017	March 2021	To form a consortium that will analyze standard of care for sickle cell disease patients, develop skills and database for sickle cell disease information	000/3571	USD 683,332	70,901.40		5,251.96	0.00
66	Dr. Billy Ngasala	Uppsalla University	Malaria Culture	May 2017	May 2019	To prolong therapeutic efficacy of first line drug for Malaria in East Africa	000/3544	SEK 3,600,000	39,310.00		2,911.85	0.00
67	Dr. Mangi Ezekiel	Research Triangle Institute	Understanding HIV-related stigma and discrimination in the health system from the perspective of health facility staff and clients, in selected facilities in Tanzania	February 2017	August 2017	To tailor existing survey instruments to the Tanzania context including adding a focus on stigma towards adolescents and young adults (18-24 years) people seeking HIV testing, treatment and care services as well as sexual and reproductive health services.	000/3570	USD 49,945.00	14,699.80		1,088.87	0.00

						To adapt and pilot test a family psychoeducation (FPE) intervention for individuals with psychotic disorders in Tanzania				43,345,067.50		
68	Prof. Sylvia Kaaya	Duke University	Family psychoeducation for adults with psychotic disorders in Tanzania	May 2017	Feb 2020		000/3586	USD 234,634			0.00	3,210,745.74
69	Dr. Mangi Ezekiel	Nutrition International	Formative Research for Nutrition Services	June 2017	December 2017	Identify enablers and barriers for food and nutrition behaviours to inform an effective behaviour change intervention strategy.	000/3589	C\$ 92,845		-	0.00	0.00
70	Dr. Pilly Chillo	University of North Carolina	Investigation of rheumatic AF Treatment Using vitamin K antagonists, ribaroxaban or aspirin Studies (INVICTUS)	April 2016	March 2021	Investigation of Rheumatic Artrial fibrillation	000/3545	Depend on patients recruitment	-	16,958,538.51	0.00	1,256,188.04
71	Dr. Ester Innocent	Family Health International Tanzania	Circles Institutional Strengthening Program (ISP)	January 2014	January 2018	To strengthen research capacity in Sub-Saharan African research institutions to support early career researchers and develop a coordinated strategic approach to climate change research	000/3551	Depends on fellows registered			0.00	0.00
72	Prof. Julie Makani	University of Western Australia (UWA)	Effects of sickle cell disease and trait on the pharmacokinetic properties of artemether-lumefantrine in african children	July 2017	October 2017	Investigate difference in PK properties of ARM-LM in Children with normal and variant haemoglobins, specifically SCD & SCT	000/3579	USD 14,950			0.00	0.00
73	Prof. David Urassa	University of Washington	Afya Bora Consortium-Carrier Development Award	July 2017	June 2018	Identify Road Traffic Injury (RTI) hotspots in Ilala Dsm; A step towards injury prevention in Tanzania	000/3585	USD 14,196			0.00	0.00
74	Dr. Emmanuel Balandya	University of Rwanda	Indoor air pollution from charcoal cooking stove and its respiratory health effect among women and children in Dar es Salaam: impact assessment and mitigation through introduction of an improved cooking stove	September 2017	August 2019	magnitude of indoor air pollution from charcoal cooking stove and its respiratory health effects among women and children as well as assess their mitigation by an improved cooking stoves in Dar es Salaam, Tanzania	000/3583	EUR 27,459			0.00	0.00
75	Prof. Sylvia Kaaya	Duke University	Adolecents Wellness Visits	July 2017	June 2018	To assess the feasibility and acceptability of implementing Adolescent Wellness Visits (AWVs) withing two government primary schools matched to nearby public health facilities	000/3587	USD 30,000			0.00	0.00

76	Dr. Francis Machumi	COSTECH	Phytochemical and Antifungal	May 2017	April 2019	To investigate Tanzanian Combretum species for formulation of standardized antifungal herbal product and isolation of active compounds	000/3574	TZS 130,000,000			0.00	0.00
77	Dr. Mughwira Mwangi	University of Bergen	NORPART	August 2017	July 2021	Strengthen Capacity & Quality of education and research in health economics in the partner institutions of MUHAS & Bergen University	000/3590	NOK 4,720,456			0.00	0.00
78	Dr. Billy Ngasala	CASCADE Biosystems Link	Highly sensitive malaria test	July 2017	January 2018	Develop & evaluate Isothermal method & instruments for Malaria diagnosis	000/3591	USD 19,076			0.00	0.00
79	Dr. Elia Mmbaga	National AIDS Control Programme	Integrated Bio-behavioral Survey among key population for HIV in Dar es salaam, Tanzania	September, 2017	January, 2018	To determine HIV/STI prevalence, risk behaviours and extent of access to health services among men who have sex with men, Female sex workers and people who inject drugs in Dar es salaam, Tanzania	000/3594	TZS 667,701,525.00			0.00	0.00
80	Dr. Musa Balowa	Result for Development	Pneumonia Diagnostic Study	September 2017	January 2018	Provide technical training services for the study Under- and Over-Diagnosis of Childhood Pneumonia in Tanzania	000/3595	USD 17,541.02			0.00	0.00
81	Dr. Catherine Shari	University of California at San Francisco	Global Health Fellowship	July 2017	June 2018	Feasibility & Efficacy of Nasal Bubble CPAP in the Management of Children under the age of five years presenting with Respiratory Distress at the Department of Emergency	000/3581	USD 43,253.60			0.00	0.00
82	Dr. Augustine Massawe	World Health Organization	Immediate Kangaroo Mother Care	January 2018	January 2020	To reduce neonatal mortality by starting Kangaroo mother care soon after birth	000/3593	USD 699,990.00	165,672.00		12,272.00	0.00
83	Prof. Daudi Simba	Ministry of Health and Social Welfare	Data quality assessment	November 2017	December 2017	Health Data Quality Assessment in Health facilities in Tanzania	000/3598	TZS 56,678,940			0.00	0.00
