BASIC OBSTETRIC EMERGENCY AND NEWBORN CARE SHORT COURSE

Introduction

The School of Nursing MUHAS, in collaboration with Njombe Institute of Health and Allied Sciences (NJIHAS), will conduct a short course on Basic Obstetric Emergency and Newborn Care **from 19th to 30th June 2023 (two weeks). Classes will start from 8:00 AM to 5:00 PM; Monday to Friday.**

Aim

The course aims to equip health care workers with up-to-date knowledge and practical skills required to deal with pregnancy and delivery-related complications that threaten the lives of mothers and their newborns.

Course Expected Learning Outcomes

By the end of the training, the participants are expected to have the ability to:

1. Identify a woman with emergency obstetric conditions by using comprehensive assessment methods
2. Utilize appropriate skills for the management of a woman with hypertensive disorders of pregnancy, i.e. pre-eclampsia, and eclampsia
3. Demonstrate skills in the management of patients with bleeding before or after delivery, including hemorrhagic shock
4. Demonstrate skills in assisting complicated deliveries, including breech extraction, shoulder dystocia, and Vacuum-Assisted Birth (VAB)
5. Conduct an immediate and comprehensive newborn assessment to recognize newborns with life-threatening conditions
6. Demonstrate appropriate skills for helping babies to survive
7. Apply concepts of customer care and integrity in the provision of midwifery services

Structure of the course

1. **Management of a woman with hypertensive disorders in pregnancy**
 - o Management of a Woman with Pre-eclampsia and Eclampsia
 - o Management of a Woman with Disseminated Intravascular Coagulation (DIC)
